

Getting to the Mara
To reach this Western National Reserve a tourist can conveniently relocate in Nairobi. Check for Air Charter plane from the Wilson Airport and book the Safari to the Mara Air Strips. If one must go by a Matatu/Bus, should reach the Narok Town from Nairobi. In Narok Town, look for a good transport to travel the next 90 Kms to the reserve gates.

Transport in the Mara
It's important to have transport to get around in the reserve - to places you want to reach safely. If you have your own transport, it is very convenient. The local Masai (Warrior) can take somebody around at an agreed fee-- and has to be prepared for the journey, blessed with the hot Sun or it is wet rains depending on the Season... We have long rains from late March to early June and the short rains in early November to mid December. We wish you an enjoyable viewing and feel welcome.
